Class Attendance & Participation:
Academic success is built upon regular class attendance. Because much of the learning in this course occurs through our class discussions, you are expected to attend all class meetings and actively participate in class discussions. In order to make meaningful contributions to class discussions, it is essential that you read assigned textbook chapters prior to class. If you miss a class, you are still responsible for what you missed. As a part of one’s professional behavior, students are expected to notify me by e-mail (sharness@utk.edu) in a timely manner if circumstances interfere with your class attendance or the completion of course assignments. A student who finds it necessary to miss class assumes responsibility for making up examinations, obtaining lecture notes, and otherwise compensating for what may have been missed. To earn maximum attendance & participation points, students are expected to attend every class session, to participate frequently in class discussions and activities and attend all skills labs. Students are allowed one absence without penalty. Five points will be deducted from the attendance/participation grade for all subsequent absences.

Classroom Etiquette
Since class discussions may entail exploration of diverse opinions and sometimes controversial subjects, an open and respectful learning environment will be an important feature of the class. The class must work together to foster a respectful environment where differing views can be freely voiced and critical but constructive dialogue can be created. It is expected that you will respect the ideas and thinking of other students in the class by listening to their explanations and appropriately questioning their thinking and reasoning if you do not understand.

Cell phones should be silenced and kept out of sight at all times during class. If there is an emergency situation in your life and you need to keep your phone on vibrate, please inform the instructor before class. Do not text during class. The instructor reserves the right to disallow the use of laptops in class if he
feels students are using them inappropriately (e.g. instant messaging, typing emails, or web surfing) and distracting others.

Course Requirements:
We acknowledge students’ right to privacy. Therefore, when dealing with personal information either in class or in a class assignment, share only to the level at which you are comfortable.

The final course grade will be based on the following:
What is Your Cultural Background? ............................................... 40 pts.
Test I .................................................................................................. 80 pts.
Test II .................................................................................................. 80 pts.
Weekly Reflection Assignment ......................................................... 80 pts.
Final Videotaped Interview ............................................................... 80 pts.
Class attendance & participation (including skills labs) ................. 40 pts.

What is Your Cultural Background? [Measures course competencies 2, 10 & 11; Dimensions of competency: Values and affective processes]

We all have a cultural background that has shaped and continues to shape who we are. Every person has his or her own unique identity, which is created by a person’s cultural background, or personal experiences. In this assignment, you will examine the multiple sources that make up your personal cultural background and that helped mold your individual identity. An individual’s cultural background, or personal experiences, influence the individual’s behavior, attitude, values, way of thinking, and the way that an individual perceives the world. For this assignment, you will write a short paper on your perceptions of your cultural background. Detailed guidelines for this paper are available on the Canvas site. Due date- 2/12/19

Test #1 [Measures course competencies 1, 2, 3, 4, 5, 6, 7, 8, 10; Dimensions of competency: Knowledge, values, cognitive and affective processes]

Test #2 [Measures course competencies 2, 4, 5, 6, 8, 9, 10; Dimensions of competency: Knowledge, values, and cognitive processes]

There will be two tests. The tests will be given electronically via Canvas and will consist of multiple choice, true/false, matching, and short answer essay questions. Test #1 will be given on 2/21/19 and will include all readings from the beginning of the semester. Test #2 will be given on 4/16/19 and will include all readings from mid-term to the end of the semester. Missed tests will be recorded as a “0”.

Weekly Reflection Assignment [Measures course competencies 2, 3, 4, 10 & 11; Dimensions of competency: Knowledge, values, and affective processes]

The purpose of this assignment is to provide students with an opportunity to reflect upon their development as a social work professional throughout the semester. In this assignment, students will keep a weekly log of their thoughts and reactions to class readings, class discussions, class activities, or any other observations they choose to discuss related to their development as a social worker. Their weekly reflections will be shared only with the instructor.
Final videotaped interview [Measures course competencies 2, 3 & 4; Dimensions of competency: Knowledge, skills, cognitive and affective processes]

To demonstrate proficiency in interviewing and working with clients, all students will complete a 15-minute interview with a “client” (actor) that will be directly observed and evaluated by the course instructor. This structure is designed to simulate as much as possible a role and situation you may encounter in your future internships and professional practice. Each student will assume the role of a case manager who is meeting with “the client” for the first time to begin building a relationship and conduct an initial assessment. This interview will be videotaped and will cover the first 15 minutes of a 60-minute social work interview. This interview is required for all students. Students will be evaluated based on their ability to demonstrate engagement and interviewing skills discussed throughout the semester. The grading rubric will be available at the Canvas site for students to review prior to the exam. All interviews will be conducted during finals week. Each student will reserve a 30-minute exam appointment using the sign-up sheets available in class. Students should arrive early for their appointment time. Students who miss their appointment forfeit their time and will fail the assignment. In the event of an emergency, students should contact the course instructor immediately to re-schedule their exam. Make-up appointments are made rarely, at the discretion of the instructor, and only in very extenuating circumstances.

Skills Labs
The SW 312 course has a concurrent skills lab that meets every other Thursday from 11:10 AM-12:25 PM in HBB 136. The labs are designed to provide students with opportunities to practice their interviewing skills, and participate in role-play scenarios, and other skill-building exercises to prepare them for their final interview. Specific dates will be announced in class and posted to the course’s Canvas site. Attendance at all skills labs is mandatory. For each lab missed, five (5) points will be deducted from the student’s final course grade. There are no make-up opportunities for missed labs.

For all exams and assignments, alternative arrangements, make-up exams, and deadline extensions are made rarely, at the discretion of the instructor, and only in extenuating circumstances.

The grading scale for SW 312 is:
A = 376-400 pts. (Exceptional performance, consistently exceeds expectations)
A- = 360-375 pts. (Consistently meets and occasionally exceeds expectations)
B+ = 348-359 pts. (Very Good)
B = 332-347 pts. (Consistently meets normal expectations)
B- = 320-331 pts. (Frequently meets normal expectations)
C+ = 308-319 pts. (Sometimes meets course expectations)

D = 252-267 pts.

As stated in the university’s Undergraduate Catalog, students must earn a C or better to receive credit for this course. Students earning a grade of C- or lower must repeat the course to earn an acceptable passing grade before they may advance in the social work major.
