MSSW Field Placement Sites in the Metro Nashville Area

The University of Tennessee MSSW Program partners with organizations in Metropolitan Nashville/Davidson County and surrounding counties in Middle Tennessee to provide student field placements. The list you will find below is intended to provide current and prospective students with a sample of the organizations with which the College of Social Work is currently affiliated. This list is organized by field of social work practice so that students may identify organizations that match their learning and career goals.

The list is representative of the types of placements that are available, but not every organization listed offers placement every year. Circumstances within each agency change on a fairly frequent basis, which means that, for any specific semester, a placement may not be accepting students or may adjust which learning opportunities are available. A comprehensive list of field organizations, along with detailed information, is available in the online field database (IPT) that students can access when they are enrolled in the MSSW program.

Students should use this information to prepare for planning meetings with the Field Coordinator and for agency interviews. **Students are NOT allowed to contact agencies directly to inquire about placement. Students must follow the placement planning procedure as stipulated in the MSSW manual and information provided by the Field Coordinator.**

*Placements are located in Nashville/Davidson County unless otherwise specified*
