Program Mission

The BSSW program at the University of Tennessee exists to fulfill a need for disciplined, highly educated and trained generalist social workers to help people improve their social functioning in a technologically complex, culturally diverse, and rapidly changing society. There is a focus on the reciprocal relationships between persons and their environments. Social workers are doers; they are problem-solvers who are able to intervene in multiple-level systems and perform various professional roles. Their actions are guided and informed by a broad knowledge-base, code of ethics, and professional values. Social workers are educated and trained to do things right as well as to do the right thing.

The mission of the BSSW program is to develop generalist social workers who are strategic thinkers, life-long learners and opinion shapers. The knowledge-base, skills, and values necessary for generalist practice are taught in an environment that fosters professional development and prepares students for critical thinking throughout their careers. We are dedicated to preparing practitioners for the challenges of the twenty-first century. Since the amount of knowledge doubles approximately every five years, what is taught today may soon be obsolete. Our challenge, therefore, lies in the on-going development and implementation of a curriculum that prepares and energizes students for generalist practice today and in the future.

Program Goals

Provision of education and training that enable students to become generalist social work practitioners who:

1. are committed to advancing social and economic justice and the principles, values, and ethics that guide the social work profession;
2. are grounded in systems theory and operate within a person-in-the-environment framework;
3. use the problem-solving process to intervene in multiple-level client systems;
4. have an understanding of human diversity and special populations that informs practice interventions;
5. use critical thinking, evaluative skills, and leadership skills to address the needs of a complex, changing society; and
6. are committed to continuous development of professional self.

Rationale:

The introduction course in the BSSW program focuses on the profession of social work. This course is intended to assist the prospective social worker in gaining awareness and understanding of the breadth and depth of the profession by providing opportunities to study its historical evolution, fields of practice, consumers of service, delivery of service, rewards and challenges and relationship with social welfare.

Course Description:

Topics covered include the emergence of the social work profession; professional mission; knowledge, skills, values; practice settings; client groups; helping services; career patterns; practice methods. This course is designed to assist students to consider their ability for a career in social work.

Course Objectives:

The objectives of this course are to provide students the opportunities and learning environment to understand and analyze:

- the knowledge base, skills and values of the dominant profession within the social welfare institution, with a special focus on the mission and concern for social and economic justice;
- the evolution of the social work profession and its relationship with the social welfare institution;
- the interaction between the person in all of his/her diversity and environmental situations as the focus of professional practice;
- a solution-seeking or generalist approach to social work practice and the competencies to utilize this problem-solving approach;
- the realities of social work generalist practice in both urban and rural areas;
- social environment and its impact on the opportunity structure for minority groups, toward an understanding of human diversity;
- the professional literature and professional organizations as resources for continued professional growth and support.

Behavioral Objectives:

Successful completion of this course will result in the student being able to:

- identify various fields of practice within the social work profession;
- discuss basic knowledge, skills, and values for entry-level social work practice;
- discuss the emergence and relationship of the profession of social work within the context of the social welfare institution;
- describe the competencies which are expected of the entry-level professional social worker;
- identify and demonstrate basic practice skills of problem-solving and interpersonal communication;

identify some of the major problems addressed in rural and urban areas and the special populations assisted by baccalaureate social workers;

discuss social work practice within a problem-solving perspective that incorporates a variety of helping roles, and is rooted in systems theory;

discuss the meaning of human diversity, blaming the victim, creaming the poor, and dual perspective and how these concepts influence practice;

discuss the rewards and challenges of the social work profession;

articulate your reasons for further pursuance of a B.S.S.W. or for switching into another area of interest.

Other required readings:

In addition to assigned readings from our texts, there are several articles designated in our syllabus (look for “*” symbol) which are required readings. They are on reserve in Hodges Library and can be accessed through *Online @UT*.

Blackboard:

This course utilizes many Blackboard features available through *Online @UT*. Please make sure the email address listed in the course is your current one. If additional help is needed accessing Blackboard contact helpdesk@utk.edu

Attendance Policy:

Students are expected to attend all classes and to arrive punctually. If you will be missing a class or will be late the instructor must be notified prior to the beginning of the class you will be missing or late for in order to be excused. Each unexcused absence or tardiness will result in 5 points being deducted from your final grade.

Course requirements:

The course format will be a combination of lecture, video, online assignments, speakers, class discussions and activities. Students are expected to read, critically analyze, and discuss assigned readings. Grades will be based on 2 exams, a reaction paper, an interview/paper, online assignments, and attendance.

NASW News Review and Reaction Paper (40 points):

The *NASW News* is a publication of the National Association of Social Workers which is distributed to its membership monthly. Hodges Library houses current editions of the newspaper in the current periodical section of the library. Each student will read and review one recent issue of *NASW News* and write a 4-5 page paper which summarizes the overall content of the newspaper and your reaction to it. The paper must follow APA format (page one is the title page and the last page is the reference page where you list the issue you reviewed; do not include an abstract) and be well organized and well written (this includes proper grammar, sentence construction, paragraph development, and spelling). The paper is due by the beginning of class on **Sept. 12th**. Late papers will be penalized 5 points.

Social Work Practitioner Interview and Reaction Paper (40 points):

Each student will be responsible for making an appointment with a B.S.S.W. or M.S.S.W. practitioner in **agency practice** and conducting a 30-45 minute interview. Appropriate topics and questions for this activity will be discussed in class. The data collected in this interview will be utilized to construct a 4 page reaction paper focusing on the perceptions of this social worker regarding the profession and his/her practice. Relate how this person's perceptions differ or reinforce what has been discussed and read to date for this class. Also, indicate what new issues were introduced that enhanced your understanding of the profession. This paper must be in APA format (page 1 is the title page, if references they would be page 5, do not include an abstract) and is due at the beginning of class on **Nov. 19th**. Late papers will be penalized 5-points.

Blackboard Online Assignments (20 points):

Students are required to participate in **all** online discussions and/or assignments on Blackboard. Each Monday morning a new discussion/assignment will be placed on the main discussion board which must be completed by the date and time noted in the assignment. Each assignment is worth 2 points. First assignment will be posted on August 26th.

Exams (100 points):

Two exams will be given during this semester based on all required readings, videos, class lectures, assignments, class discussions, and speakers. Each exam will be worth 50 points. The exams are scheduled for **Oct. 3rd** and **Nov. 21st** and will be administered on Blackboard in a campus lab. No make-up exams will be allowed unless you obtain permission from the instructor to be absent from the exam prior to the start of class the day the exam is given.

Extra Credit:

It is the BSSW program's expectation that all social work majors participate in the BSSW Student Social Work Organization (SWO). All students, regardless of major who are enrolled in SW 200 (Introduction to Social Work) and/or in SW 250 (Social Welfare) are welcome. This organization

meets every Tuesday from 11:10 -12:25 in room 209, Henson Hall. This time slot is built into the class schedule as a lab. Given the time of the meetings, students are encouraged to bring their lunch.

The BSSW-SWO is a student organization that provides an excellent opportunity for leadership development, community and university service, the enhancement of group skills, research opportunities, and socialization. This organization and its activities are viewed as an extension of the BSSW curriculum.

Students in this class will have the opportunity to earn five (5) final grade points for extra credit by attending and participating in the BSSW-SWO this semester. Your attendance and participation must be documented. Attendance will be taken at each meeting. You must attend seven (7) or more meetings during the term. Also, you must participate in one of the organization's standing committees. Both attendance and participation are required for extra credit. You will need to complete a form listing your activities in the organization throughout the term. The form will be signed by a committee chairperson and the faculty liaison to the BSSW-SWO. The completed, signed form must be handed into me one week prior to the end of class. Without the signed form verifying your attendance and participation, the extra credit will not be provided. No other extra credit is available in this class.

Grading:

Students will be evaluated by total points earned in this course as outlined above. No extra credit (except for SWO participation) or rewrites are permitted in this course. The grading scale by total points is as follows:

180-200	A	140-149	C
170-179	B+	130-139	D
160-169	B	129-below	F
150-159	C+		

Disability Services:

If you need course adaptations or accommodations because of a documented disability or if you have emergency information to share, please contact the Office of Disability Services at 191 Hoskins Library or 974-6087. This will ensure that you are properly registered for services.

Honor Statement:

An essential feature of the University of Tennessee is a commitment to maintaining an atmosphere of intellectual integrity and academic honesty. By enrollment in this class, you pledge that you will neither knowingly give, nor receive, any inappropriate assistance in academic work in SW 200, thus affirming your own personal commitment to honor and integrity (*Hilltopics*, 2002).

Inclement Weather Policy:

Class will be cancelled only if the University is closed due to inclement weather. Campus and local radio and TV stations will be notified so that appropriate announcements may be made. If class is cancelled, any assignments due that day will be due the next time class meets.
