Required Texts

Yalom, I. D. (1995). Theory and Practice of Group Psychotherapy, 4th ed. New York: Basic Books.

Reserved readings available at UT Libraries Course Reserve. Type in "Social Work 525 Patterson" , without the quotation marks.

Course Requirements

1. Full attendance.
2. Responsible participation in class activities and discussion.
3. Biweekly quizzes on the content of the readings.
4. Completion of all biweekly papers. These type-written papers are due at the start of class and should be emailed to the professor. These papers are to be 2-3 pages in length. They will contain two sections.

Discuss the concepts and key ideas from the readings applied to the class group exercises as well as your prior group leadership and membership experiences. Discuss the relevance and applicability of the theory and concepts of the readings to your own experiences in the group experiential exercises. Your observations of your own reactions and group observations are a critical component of this section. Include theory and concepts from prior readings as appropriate. Your capacity to examine your own behavior, motivations, and emotional reactions and formulate personal change goals will facilitate your ability to assist clients in specifying how they wish to be different.

Paper Evaluation Guidelines -

1. *To what degree has the writer addressed the major ideas in the readings?*

2. *To what degree has the writer demonstrated self awareness and insight?*

3. *To what degree has the writer integrated the major themes or ideas from the readings with their observations of self, classroom group exercises, and/or prior group experiences?*

4. *How would you rate the overall depth and quality of the writing?*

Bi-weekly quizzes

To take the bi-weekly quizzes, log onto <http://online.utk.edu/>. You have three hours to complete each quiz. The quiz is open-book, open note, but it is strongly recommended that you thoroughly read all assigned readings for the quiz before taking it.

Though the quizzes are open-book, open-note, they are not collaborative projects. Any copying of the questions, any sharing of questions or answers, any form of collaboration, discussion, or shared information via email or any other medium constitutes Academic Dishonesty as described by UT Hilltopics. As such, it will be dealt with by the instructor to the fullest extent allowable by UT Hilltopics, which may include suspension from the class and assignment of an "F" for either the quiz, the class, or both.

If you are inadvertently logged off of <http://online.utk.edu/> while taking the quiz, please email Dr. Patterson at dpatter2@utk.edu and inform him of what transpired. Your quiz will be re-set if necessary.

5. Comprehensive final exam - This will be available at <http://online.utk.edu/>. You will have four hours to complete it.

Grades

Grades for the biweekly papers will be earned on the basis of the quality of the thought and depth of analysis evidenced in them. The first two requirements (attendance and participation) will account for 10% of the grade. The weekly papers will account 35% of the course grade (5% per paper). Biweekly quizzes will account for 35% of the course grade. The final will comprise 20% of the course grade. Grades will be assigned according to the guidelines set forth in the Graduate Catalogue as follows:

- A - Superior performance; work clearly demonstrates excellence
-
- B+ - Better than satisfactory performance
-
- B - Satisfactory performance
-
- C+ - Less than satisfactory performance
-
- C - Performance well below the standard expected of graduate students
-
- D - Clearly unsatisfactory for graduate level
-
- F - Extremely unsatisfactory performance
-

- I - A temporary grade indicating that the student has performed satisfactorily in the course, but due to unforeseen circumstances, has been unable to finish all requirements. An I is not given to enable a student to do additional work to raise a deficient grade.

Some students find it helpful to enter individual or group therapy as part of their development as social workers. For students seeking individual or group therapy, there are two resources available on campus, the Psychology Clinic and the Student Counseling Services Center. They are both described below.

For the past 50 years, graduate student clinicians at the Psychological Clinic at the University of Tennessee have offered quality mental health services to students and residents of the surrounding community at affordable, sliding-scale fees. The Clinic is available to UT students for individual, marital, and group therapy. To make an appointment, call the UT Psychological Clinic at 974-2161, from 8 A.M. to 8 P.M., Mondays through Thursdays, or 8 A.M. to 5 P.M. Fridays.

The Student Counseling Services Center (SCSC), a department within the Division of Student Affairs, is the university's primary facility for personal counseling, psychotherapy, and psychological outreach and consultation services. It provides direct service to students and to spouses or partners of students in conjoint therapy. No fees are charged
