Psychopathology

Dr. Roger M. Nooe  
Fall 2005

In this paper you are to select a specific disorder or aspect of psychopathology and write a paper that consists of:

- 1) A brief synopsis of the topic and
- 2) An annotated bibliography

The synopsis should summarize the current state of knowledge and/or issues about the topic in 4-5 pages. The annotated bibliography should represent current research and provide your summary – rather than simply copying the abstract from the article. Articles are to be identified in APA style.

Selection of the topic should be based on usefulness for practice and manageability. While not required, students may consult the instructor about the appropriateness of a topic.

Due Date: Tuesday, November 1, 2005.
