Texts

Ashford, J.B., Lecory, C.W., & Lortie, K.L. (2001). Human Behavior in the Social Environment: A Multidimensional Perspective. Pacific Grove, CA: Brooks/Cole.

Kirst-Ashman (2000). Human Behavior, Communities, Organizations and Groups in the Macro Social Environment: An Empowerment Approach. Brooks/Cole.

Course Requirements

The instructor encourages active student participation in class. Students are expected to attend all classes, to prepare fully before each class, and to complete all assignments as scheduled. Students will be expected to bring to class for discussion examples of concepts and materials from their own life and practice experience.

There will be three assignments in the course:

1. In class presentation (20%)
2. Term paper (40%)
3. Final examination (30%)
4. Class attendance and participation (10%)

Assignments & Grading

The Grading Scale is as follows:

A	=	90-100
B+	=	87-89
B	=	80-86
C+	=	77-79
C	=	70-76
D	=	60-69
F	=	below 60

Assignment 1

In the first assignment you will be asked to select a developmental challenge (Sexism, Racism, Substance Abuse, Mental Illness, Poverty or Domestic Abuse), and one of the developmental stages presented in class (Young Adulthood, Middle Adulthood, or Late Adulthood). The presentation can be focused on topics, such as: Young Adulthood: gender differences, coming out, impacts of childhood abuse, impact of poverty; Middle Adulthood: abuse in gay and lesbian relationships, caring for family member with severe mental illness, and step-parenting - blended families; Late Adulthood: elder abuse, poverty and aging, grandparents raising children. In the presentation, you should (1) summarize the characteristics of the developmental stage and the nature and impact of the challenge on development; (2) discuss the influence of organizational and community factors; (3) identify potential ethical issues and the dilemmas they present. We will discuss the expectations for the presentation in more detail in class.

Assignment 2

You will be asked in the second assignment to conduct interviews with two individuals from different ethnic, racial or cultural groups who are in the same stage of development. You will then be asked to prepare a paper based on your analysis of these interviews, discussing the impact of ethnicity, race, culture, community and/or organizational factors on development. Papers should compare and contrast these individuals' development utilizing an ecological perspective and theoretical concepts discussed in class. Papers should be approximately 10 pages in length. More details will be provided in class.

Assignment 3

The final exam will be comprehensive, including material from class and assigned readings.
