Assignments

1. Group Policy Poster Presentation

The group policy poster presentation involves an in-depth review of a particular social problem and the policy used to alleviate the problem. A list of policy issues that will be presented in the 105th TN General Assembly will be passed out to the class for each group to select one. Objectives of the policy poster are: 1) be able to apply and synthesize policy concepts and principles, and 2) help you understand the composition process, moving from identifying an initial topic to the finished paper. The following points must be included in the paper:

1. Identify the potential area of policy change for the specific policy issue chosen.
2. Describe the chosen policy/issue.
3. How does this policy affect vulnerable populations?
4. Discuss why you believe your chosen policy needs to change.

5. Include objective factors such as impact on client populations, cost/benefit analysis, etc. The poster needs to be well organized with no spelling or grammar errors. The research done on the poster will be used to develop the policy analysis paper **Due date: February 27, 2006. One poster will be chosen to present at SWDOH.**

2. SWDOH Reflection Paper

A three-page typed, double spaced paper describing your experience and participation in SWDOH. The paper should include your learning experiences and thoughts about the process. **Due date: March 6, 2006**

2. Group Policy Analysis Paper

Using the policy issue identified in the poster presentation, your group will need to select one of the policy analysis frameworks discussed in class to analyze the policy, and propose changes to the policy based on what was learned from the analysis process. The following points must be included in the paper:

1. A description and discussion of the policy. How does this policy affect vulnerable populations? **Attach a copy of the actual policy/legislation to your paper.**
2. A description and discussion of your chosen policy analysis framework. Provide a rationale for why you chose this particular model.
3. Using your chosen model, provide a step-by- step analysis of your policy.
4. Based on your analysis, provide specific recommendations for policy changes. These recommendations are to be based on the objective information you obtained in the analysis process.
5. If relevant, include an international perspective to the analysis.

The paper will be graded on how well the policy is critically analyzed. Are statistics, case examples, research, and objective information used to support the analysis process? Are both opponent and proponent positions discussed in the analysis? The papers should be **at least 20 pages in length**, typed, and doubled spaced. **Use APA style for referencing and formatting. Due date: April 24, 2006.**
