

**THE UNIVERSITY OF TENNESSEE
COLLEGE OF SOCIAL WORK**

**SW 524
PSYCHOPATHOLOGY**

Summer Semester, 2003

Professor: Dr. Roger M. Nooe
Office: 222 Henson Hall
Phone: 974-3175
Email: rnooe@utk.edu

CODE OF CONDUCT

It is the student's responsibility to have read the College of Social Work Ethical Academic and Professional Conduct code that is in the College of Social Work MSSW Handbook (www.csw.utk.edu)

THE HONOR STATEMENT

An essential feature of The University of Tennessee is a commitment to maintaining an atmosphere of intellectual integrity and academic honesty. As a student of the University, I pledge that I will neither knowingly give nor receive any inappropriate assistance in academic work, thus affirming my own personal commitment to honor and integrity. (*Hilltopics, 2002*).

DISABILITY

If you need course adaptations or accommodations because of a documented disability or if you have emergency information to share, please contact the University of Tennessee Office of Disability Services at 191 Hoskins Library at (865) 974-6087. This will ensure that you are properly registered for services.

COURSE DESCRIPTION

Psychopathology is an advanced clinical elective focusing on knowledge and assessment of psycho social functioning of the individual. This course examines mental disorders in terms of clinical presentation, problems, causes, and processes. An ecological perspective is used to understand that mental illness occurs within a social context. Theories of and recent research in the etiology of psychological dysfunction and social variance are reviewed. Methods of assessment currently used in clinical social work practice are demonstrated and critically examined. The interactions of biological, psychological, social, risk and resiliency, cultural, political, and environmental factors are stressed in understanding the development and maintenance of mental disorders.

RATIONALE

This course is an advanced elective for MSSW students. It is designed to provide understanding of psycho pathology and dysfunctional behavior in terms of manifestation, etiology, dynamic causation and diagnosis as a basis for intervention.

COURSE OBJECTIVES

By completion of this course, the student is expected to be able to (through course activities, assignments and/or exams):

1. Describe different theoretical approaches or models for the study of psychopathology;
2. Identify the components of comprehensive assessment with individual clients, including the use of the mental status examination, differential diagnosis and psycho social evaluation;
3. Identify, describe, and distinguish the major types of psychopathology including symptomology, etiology, and coping function served;
4. Identify theories of human growth and development that contribute to understanding psychopathology;
5. Describe the interaction of biological, sociological, psychological, risk and resiliency factors in the generation of psycho pathology;
6. Identify the effects of ethnic, racial, cultural, economic, sexual orientation, age, gender, physical and mental ability characteristics on and vulnerability to maladaptive behavior;
7. Apply knowledge of psychopathology to formulate differential diagnosis and identify the implications of diagnosis for social work intervention;
8. Explicate an understanding of the ethical issues encountered in assessment and intervention in regard to psychopathology, and psychiatric diagnosis with clients and the ability to analyze ethical dilemmas that may arise.

TEXTS

Required:

Maxmen, J.S. & Ward, N.G. (1995). Essential Psychopathology and Its Treatment. New York: W.W. Norton & Co.

Supplemental:

American Psychiatric Association (2000). Diagnostic and Statistical Manual of Mental Disorders Fourth Edition, Text Revision (DSM IV - TR). Washington, D.C.: APA

Kaplan, H. I., & Sadock, B.J., (2003). Synopsis of Psychiatry. 9th Edition, Baltimore: Williams & Wilkins

A. Readings

- a. Basic texts have been selected and are listed in the bibliography. In addition, students are encouraged to read extensively from the recommended readings and materials. Review of articles in the numerous relevant professional journals is especially encouraged.

B. Expectations and Evaluation

Assignment guidelines will be distributed in class.

1. Term paper-Examination of a specific area or type of psychopathology.
2. Final exam-Objective and comprehensive.
3. Participation-Students are encouraged to serve as resource persons, sharing with the class relevant information which they have gained in their reading/research.
4. Quizzes-Periodic quizzes will be given to help students monitor their progress.
5. Grading-The final grade will be based on:
 - a). Term paper 50%
 - b). Exam/Quizzes 50%

COURSE OUTLINE

- I. Introduction to the Study of Psychopathology
 - A. Concepts of psychopathology and normality
 - B. Classification and definition
 - C. Models
 - D. Social work perspective
- II. Assessment of Psychopathology
 - A. Ecological Perspective
 - B. Ethnic, racial, cultural, gender and orientation factors
 - C. Vulnerable populations
- III. Delirium, Dementia, and Amnestic and other cognitive disorders
Substance-Related Disorders
- IV. Personality Disorders
- V. Schizophrenia and Other Psychotic Disorders
- VI. Mood Disorders

- VII. Neurotic Disorders
 - A. Anxiety, Phobias, Obsessions
 - B. Somatoform Disorders
 - C. Dissociative Disorders
- VIII. Factitious Disorders and Malingering
- IX. Other disorders: Adjustment, Impulse Control, Addictions, Psychological Factors Affecting Physical Conditions, Eating Disorders, Sleep Disorders, Sexual and Gender Identity Disorders.
- X. Disorders of Childhood
- XI. Review
- XII. Final

READING LIST (* -Indicates material on reserve)
 READINGS AND SCHEDULE
