**STUDENT EVALUATION OF FIELD PRACTICE**

Just as there are regular evaluations of each course taken at the College of Social Work, all students are requested to evaluate their field practicum experience. These evaluations provide a profile of the practicum instruction received by students and a source of feedback to the field coordinator concerning student perceptions of their experience in the practicum. A copy of the evaluation may be shared with instructors once grades have been submitted, **if the student gives permission**. Thank you for your time in completing this evaluation.
