Code of Conduct
It is the student's responsibility to have read the College of Social Work Ethical Academic and Professional Conduct Code that is in the College of Social Work MSSW Handbook (www.csw.utk.edu). Students are also expected to sign and adhere to the Social Work Field Placement Code of Conduct.

The Honor Statement
An essential feature of The University of Tennessee is a commitment to maintaining an atmosphere of intellectual integrity and academic honesty. As a student of the University, I pledge that I will neither knowingly give nor receive any inappropriate assistance in academic work, thus affirming my own personal commitment to honor and integrity. (Hilltopics).

University Civility Statement
Civility is genuine respect and regard for others: politeness, consideration, tact, good manners, graciousness, cordiality, affability, amiability and courteousness. Civility enhances academic freedom and integrity, and is a prerequisite to the free exchange of ideas and knowledge in the learning community. Our community consists of students, faculty, staff, alumni, and campus visitors. Community members affect each other's well-being and have a shared interest in creating and sustaining an environment where all community members and their points of view are valued and respected. Affirming the value of each member of the university community, the campus asks that all its members adhere to the principles of civility and community adopted by the campus: http://civility.utk.edu/

Disability
If you need course adaptations or accommodations because of a documented disability or if you have emergency information to share, please contact The University of Tennessee Office of Disability Services at 2227 Dunford Hall (865) 974-6087. This will ensure that you are properly registered for services.
Dimensions of Diversity
The College of Social Work and the University of Tennessee welcome and honor all people. In accordance with the U.S. Council on Social Work Education and the U.S. National Association of Social Workers, the College of Social Work defines “the dimensions of diversity as the intersectionality of multiple factors, including” age, class, color, culture, mental or physical disability, ethnicity, gender, gender expression, gender identity, immigration status, marital status, national origin, political ideology, race, religion, sex, and sexual orientation. The College values intellectual curiosity, pursuit of knowledge, and academic freedom and integrity. A person’s diverse life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. The College of Social Work promotes social justice and social change, and strives to end discrimination, oppression, poverty, and other forms of social injustice.

Course Description
This is a required advanced curriculum course. Organizational management knowledge, leadership skills required in development and management of structure, resources, and cultures of human services delivery systems. Administration financial knowledge and skills in budgeting, resource allocation, marketing, and expenditure control. **INSTRUCTOR EXPECTATIONS OF ALL STUDENTS:**

- Demonstrated professional growth and development and maturation in critical thinking capacity as it relates to leadership concepts and issues, social work micro and macro practice, social welfare policy, and current local, national, and international issues;

- Demonstrated ability to effectively work in teams to complete a complex and interactive “virtual” group simulation project in a timely manner;

- Demonstrated ability to prepare for and actively engage in high-level, directed discussion, public speaking, and interface regarding past and current leadership challenges and issues in human services, and their impact on the public-at-large.

**Recommended/Supplemental Readings:**

Course Structure and Organization of Learning Modules.

The class will meet two days per week (Monday and Wednesday) for a 2-hour period. Most course content will be provided through interactive lectureettes combined with Power Point class presentations by the instructor. The Power Point slides will include content from the supplemental readings cited, as well as content from current scholarly literature and research on leadership, leadership issues, and how they relate to the social work profession, and you as future social work professionals. The Power Point slides will be provided to the class electronically. Students are responsible for knowing the information, whether or not it is
discussed at length during class.

**Please note:** This course requires 16 “normal” semester-weeks of course content in a time period that includes 5 summer weeks (total of ten sessions). It will therefore require a high level of focus, work, and critical thinking. Additionally, because of acute time constraints, some academic content will not receive the level of class time, attention, and discussion that would normally occur.

**Course Requirements, Assignments, and Grading:**

The final grade in the class will be based upon the following criterion and their corresponding grade percentages:

**Leadership Assessment and Analysis Term Paper** (20% of final grade)

*Course competencies covered: 1, 2, and 5*

Students are responsible for writing and submitting individual term papers for this assignment, which is due on **June 17, 2015**. The LA/A is a critical thinking exercise that integrates leadership concepts and models with student perceptions of leadership reality. *Students will*
analyze a current leader from the public, private, or political sector, as well as assess their own leadership style. The target for analysis will be a well-known local, state, national or international leader who has been “in the news” from the public, private, government/political, military, or private, non-profit sector. Detailed assignment specifications will be provided by the instructor.

The Leadership Assessment and Analysis term paper addresses the following course competencies: Articulate principles of organization, administration, and strategic planning and community change tactics that promote social and economic justice, combat discrimination and oppression, and increase access to resources----Identify theoretical principles of leadership and management, and interdisciplinary teams and define issues, collect data and develop interventions, taking into account different cultural identities and belief systems -----Articulate principles of organization, administration, and strategic planning and community change tactics that promote social and economic justice, combat discrimination and oppression, and increase access to resources

Graduate level work includes an ability to synthesize one’s experience and knowledge into an explanation that illuminates theory and an understanding of the course material. The writing of papers is expected to be organized, succinct in conceptualization and syntax, and grammatically correct. Even if you use a word processing program with spell check, proof read your work. Your final paper is expected to be well-written and error-free.

The use of the Publication Manual of the American Psychological Association (APA)(6th ed.) format including the use of headings/subheadings, reference list, and title page is expected to be used as a guide for writing and citing sources. The APA formats will be rigidly evaluated for accuracy, and proper APA style will carry significant weight in the final LA/A term paper grade. Grading criteria for term papers will include, but not be limited to:

- Adherence to assignment specifications;
- Quality and clarity of writing and organization;
- Comprehensiveness;
- Level of analysis and understanding of course content applied;
- The extent to which course concepts, discussion and readings are reflected in the writing; and
- Submission of assignments on the dates specified within the guidelines provided.
- Extent of adherence to APA writing rules.

Students who have writing issues or want to improve their writing should consult the University of Tennessee writing center immediately

Midterm Examination (25% of final grade:}
Course competencies covered: 1, 2, 3, 4, 5, 6 and 8

The Midterm Examination will be held on **June 22** and will represent **25%** of your final grade. Exam I will cover material from class sessions #1-6 (June 1-June 17), and will address the following course competencies:

Articulate principles of organization, administration, and strategic planning and community change tactics that promote social and economic justice, combat discrimination and oppression, and increase access to resources----

Identify theoretical principles of leadership and management, and interdisciplinary teams and define issues, collect data and develop interventions, taking into account different cultural identities and belief systems ----

Identify sound management practices related to personnel, resource allocation, information technology, and decision-making that is based on scientific analysis, synthesis of empirical data, evaluation outcomes, and other information-----

Describe techniques of team-building, collaboration, coordination in organizational and community practice settings, and understanding of influences and implications of culture, geography, community, gender, religion, politics, ideology, and other identities and orientations on different world views-----

Demonstrate skills in financial management, resource procurement, expenditure analysis, program design, and marketing for diverse, multi-level client systems-----

Identify theoretical principles of leadership and management, and interdisciplinary teams and define issues, collect data and develop interventions, taking into account different cultural identities and belief systems-----

Articulate core values and ethical standards of the social work profession within diverse management, organizational, and community practice settings-----

Analyze the organizational, political, economic and cultural factors that influence stability and change.

EXAM FORMAT: The format for the examinations may be a combination of true/false, multiple choice, definitions, short answer questions, and/or short or extended essay questions.

**Virtual Community Leadership Simulation (VCLS), Part I and II**

The VCLS Part I and II address course competencies # 1,3,4,5,6,7, and 8

(combined 50% of final grade)

All students will participate in a critical thinking and interactive exercise called a **Virtual Community leadership Simulation** (VCLS), Parts I and II. Students will be provided with a **fictional leadership case study based on a real urban community scenario** that occurred in the past. The case study is a fictional macro practice scenario about public welfare, intergovernmental relations, community intervention, problem-solving, and program design. Individual students will be assigned to specific roles that represent different stakeholders. All students will be provided with contextual information for each of their assigned roles/characters and/or interest groups, and they will simulate those roles/characters or interest groups during **simulated community meetings to be held on June 24, June 29th, 2015**. Additional detail on the VCLS will be provided by the instructor.

**Location: TBD**

The “virtual” nature of this experiential exercise will require and enhance critical thinking, planning, political analysis, public speaking, and teamwork, and it will provide students with unique insight into advanced leadership nuances, and the many different dynamics associated
with community-level analysis and interventions. All VCLS roles/characters will be provided with scenario-specific challenges to be addressed prior to and during the community meetings. The VCLS will be video recorded. Detailed assignment specifications will be provided, including the specific roles that each student will simulate. Individual student grades will be given for the VCLS Project. This means that each individual will be graded for his/her work alone, even though it is an “interactive” group-oriented project.

VCLS Organizational Action Plan Development (5%), VCLS Political Strategy Development (5%), and individual Action Plan Presentations (20%)

All students will individually develop and submit a detailed outline of their Action Plan for the community meetings one class session before it takes place. Details will be provided, but the Action Plan will consist of a Power Point presentation that includes an overall goal, specific objectives, a specific and evidence-based strategy for attainment of the stated objectives, and an outline of information to be presented at the VCLS, Part I. (Note: all students will represent individual leadership roles in different organizations and will have major public speaking and critical thinking assignments in the VCLS).

The VCLS Organizational Action Plan is due on June 23 and presentations will begin on June 24. Additional details on the Organizational Action Plans will be provided in class.

Students will also be required to develop and submit a detailed “Political Strategy.” Additional details on these assignments will be provided in class. The VCLS Political Strategy is also due on June 23.

Virtual Community Leadership Simulation, Part II – Strategic Planning (combined 20% of final grade)

All students will participate in a collective assignment to develop a “working” Strategic Plan, based on the outcomes from VCLS, Part I presentations. The Strategic Plan presentations will take place on Wednesday, July 1, 2015. Each tri-lateral group will develop Strategic Plans, which will be collectively presented. The Strategic Plan development meetings will use “Zoom” video and recording technology. Additional details on the Strategic Plan assignment will be provided in class.

The VCLS (Parts I and II) address the following course competencies:

Articulate principles of organization, administration, and strategic planning and community change tactics that promote social and economic justice, combat discrimination and oppression, and increase access to resources---- Identify theoretical principles of leadership and management, and interdisciplinary teams and define issues, collect data and develop interventions, taking into account different cultural identities and belief systems ---- Identify sound management practices related to personnel, resource allocation, information technology, and
decision-making that is based on scientific analysis, synthesis of empirical data, evaluation outcomes, and other information. Describe techniques of team-building, collaboration, coordination in organizational and community practice settings, and understanding of influences and implications of culture, geography, community, gender, religion, politics, ideology, and other identities and orientations on different world views. Demonstrate skills in financial management, resource procurement, expenditure analysis, program design, and marketing for diverse, multi-level client systems. Identify theoretical principles of leadership and management, and interdisciplinary teams and define issues, collect data and develop interventions, taking into account different cultural identities and belief systems. Articulate core values and ethical standards of the social work profession within diverse management, organizational, and community practice settings. Assess cultural diversity in organizations and communities, its impact on management, macro-level interventions and resources, and program development. Analyze the organizational, political, economic and cultural factors that influence stability and change.

**Grading Scale**

The following grading scale will be used for final course grade.

- **A** (95-100) Outstanding/Superior – Exceptional performance. Consistently exceeds expectations.
- **B+** (90-94) Very Good – Student consistently meets and occasionally exceeds normal expectations for the course.
- **B** (85-89) Good – Student consistently meets normal expectations for the course.
- **C+** (80-84) Average – There is unevenness in grasping course content. Student is inconsistent in meeting the normal expectations for the course.
- **C** (70-79) Poor - There is a lack of understanding of course content. Student does not meet course expectations.
- **F** (69 < ) Very Poor – There is a lack of attendance or incomplete or unacceptable assignments. Course expectations are not met.
